

Interactive Tutorial 1: Markdown

Working with Markdown

Press `Ctrl + Shift + M` to open a formatted preview on the right.

Basic Text

Write two sentences about yourself, each in a different paragraph.

Hello my name is Rosie and I'm from Ithaca.

I'm in the design lab right now!

Headers

Make a 3rd level header with your name:

Rosie 😊

Emphasis

Write 4 of your favorite words using each type of emphasis:

water **wind** *fire* ~~earth~~

Lists

Make an ordered list of 3 things you hope to achieve this semester, and elaborate on them with sub items. Then, make an unordered list of 3 classes that you're taking this semester:

1. Survive
 1. get enough sleep
 2. eat regularly
 3. don't die
2. Make money
 1. get a job
 2. go to work
3. Pass my classes
 1. do homework
 2. don't fail prelims

- fluids
- microbio
- stats

Links

Write a sentence describing your major, and insert a link to your major's department website:

ENVIRONMENTAL ENGINEERING IS THE BEST MAJOR BECAUSE WE GET TO PLAY WITH WATER:
[the best major website](#) or click here: <https://bee.cals.cornell.edu/undergraduate/environmental-engineering-program/>

Images

Insert the Cornell seal image with:

1. A relative file path(`/Images/Cornell_University_seal.png`)
2. A URL
(https://raw.githubusercontent.com/AguaClara/aguaclara_tutorial/master/Images/Cornell_University_seal.svg.png)

- 1.

Code Formatting

Put the name of this file in an in-line (single backtick) code format.

`Interactive-Tutorial-1-Markdown.md`

Put the following text in a Python-formatted code block:

```
def foo():  
    print("Particles of a feather...")  
    print("...floc together!")
```

```
def foo():  
    print("Particles of a feather...")  
    print("...floc together!")
```

Tables

Create a table listing your 3 favorite animals, books, and places on campus. Use a different alignment for each column.

Animals	Books	Places on campus
cows	poetry?	Mann Library
parrots	Harry Potter?	Plant science tunnel
turtles	reading for fun?	Hollister Hall!

Blockquotes

Write your favorite quote. It must be attributed to Albert Einstein.

Don’t believe everything you read on the internet -Albert Einstein

Horizontal Rules

Add a horizontal rule:

LaTeX Formatting

Copy the equation towards the end of the [Markdown tutorial](#) and paste it here:

$a^2 + b^2 = c^2$
